# GUSTAVE

## CARACTERISTICS

## SHELL

<p>SIDE / BACK / PLINTH / DRAWER</p>	<p><b>Exterior:</b></p> <p><b>Materials:</b> Melamine bonded particle board, 2 decorative faces  <b>Density:</b> 630 - 710 kg/m<sup>3</sup>  <b>Shell thickness:</b> 19 mm</p> <p><b>Adjustable stabiliser feet:</b> Plinth with 4 stabiliser feet secured in through bores <math>\varnothing</math> 10 mm. Accessible by removing the drawer from the cabinet or by tilting the pedestal.</p> <p><b>Assembly:</b>          Supplied assembled (except front panel). On the desk extension model, the top is also to be assembled.</p> <p><b>Pedestal interior / Drawer:</b></p> <p><b>Materials:</b> Melamine bonded particle board, 2 decorative faces  <b>Density:</b> 630 - 710 kg/m<sup>3</sup>  <b>Shell thickness:</b> 16 mm  <b>Colours:</b> white for all models</p> <p><b>Shelving included:</b></p> <ul style="list-style-type: none"> <li>&gt; 1 shelf for H. 735 mm models</li> <li>&gt; 2 shelves for H. 1135 mm models - shelf height adjustable to desktop height (735 mm)</li> </ul> <p>Useful spread load: 30 kg</p> <ul style="list-style-type: none"> <li>&gt; 4 shelves: median vertical partition with 2 shelves on each side for shared models.</li> </ul> <p><b>Reversibility:</b>          2 vertical detachable panels to change the direction of opening: on the same principle as for shelf assembly, the vertical panels detach to choose left or right hand opening.</p> <p><b>Accessories:</b></p> <ul style="list-style-type: none"> <li>&gt; Up to two cable ports (see cable management option). Partially pre-drilled in the drawer base for cable management <math>\varnothing</math>56 mm</li> <li>Vents in the lower part for cable passage.</li> <li>&gt; Insert on the top of the vertical panel for securing the accessories rail (see corresponding option).</li> </ul> <p><b>Secure compartment: shared model only</b>          Door in metal with cylinder lock</p>
<p>DECORATIVE TOP</p>	<p><b>Materials:</b> Melamine bonded particle board, 2 decorative faces  <b>Density:</b> 630 - 710 kg/m<sup>3</sup>  <b>Thickness:</b> 25 mm</p> <p><b>Individual and shared pedestals:</b>          Structural &amp; matching the cabinet body (supplied assembled for all heights).          On individual models (H. 735 / H. 1135), the top includes a rail &amp; hooks for the passage of cables.</p> <p><b>Desk extension pedestal:</b>          Supplied in a separate package for assembly.          Choice of decorative top for 735 cm desk extension models (specific code)</p>
<p>SLIDING MECHANISM - FITTINGS</p>	<p><b>Castors:</b> 2 fixed castors <math>\varnothing</math> 50 mm secured to plates, total height 68 mm - grey &amp; black: invisible castors.</p> <p><b>Runners:</b> Maximum load 60 kg/runners - Two lever catch at bottom left and right for easy drawer extraction - on ball bearings</p> <p><b>Rail in upper section:</b> rail in aluminium with hooks for cable management inside the pedestal (except shared model)</p>

## OPENING MECHANISM

FRONT PANEL	<p><b>Materials:</b> Bonded particle board with counterbalanced melamine overlay  <b>Density:</b> 630 - 710 kg/m<sup>3</sup>  <b>Thickness:</b> 19 mm</p> <p><b>Finish:</b> As desired, irrespective of body.</p> <p><b>Handle:</b>          Handle in aluminium with anodised silver finish - spacing 256 mm</p> <p><b>Assembly:</b>          The handle is attached to the front panel before it is secured to the front wall of the pedestal.          Attached to the front panel with the help of a metal peg, fixed with 6 screws.</p> <p><b>Lock:</b>          Single-point locking - optional master key</p>
-------------	--

## INTERNAL FITTINGS

SHELVES (included)	<p><b>Materials:</b> Bonded particle board panels with counterbalanced melamine overlay  <b>Density:</b> 630 - 710 kg/m<sup>3</sup>  <b>Thickness:</b> 16 mm          Load per shelf: maximum 30 kg  <b>Adjustment:</b> adjustment range 32 mm; 3 positions</p> <p><i>*the shared model has 4 shelves: 2 shelves on each side</i></p>
Power and cable management (optional)	<p><b>Power and cable management kit:</b>          &gt; 2 power outlets, cut-out Ø 56 mm to take 2 socket outlets Ø 68 mm          &gt; 1 PC high current 250V (adapted per country) / 1 socket with 2 5V USB charging ports          Each of the 2 outlets is connected to one shared 1 distribution block (1 input - 2 outputs), fed by 1 cable length 3m          &gt; 2 finishing panels included: plastic in black or white          &gt; Secures to the inner wall at the back (predrilled).</p>
Accessories on rail: (optional)	<p><b>Rail:</b>          &gt; Sheet steel 6 mm thick, H. 50 mm, drilled to take the screw-on knobs at the extremities, screwed into the panel.          &gt; Rail with centre groove for insertion of accessories          &gt; Finish: lacquered epoxy (see metals shade card)</p> <p><b>Accessories:</b>          &gt; Sheet steel 1 mm thick, drilled at the top for insertion of ABS track gliders and to suspend the accessories from the rail          &gt; Each accessory is supplied with 4 ABS track gliders (2 White and 2 Anthracite grey)          &gt; Finish: lacquered epoxy (see metals shade card)</p>
Fillet - 2 pedestals back-to-back (optional)	<p><b>Materials:</b> Sheet steel 8/10th mm - epoxy paint  <b>Dimensions:</b>          &gt; Model H. 735 mm - height 678 mm and width 107 mm          &gt; Model H. 1135 mm - height 1078 mm and width 107 mm  <b>Adjustment range:</b> The adjustment interval is 50 mm or 65 mm  <b>Description:</b> Used to place two tower pedestals in a juxtaposed configuration (back to back) by filling the gap between the two pedestals, to accompany a twin bench.</p>
SF accessories (optional)	<p>Support for suspended files in sheet metal, colour: White.          Fixed vertically using wood screws under the shelf base</p>

**TOWER PEDESTAL - Individual**

OVERALL DIMENSIONS (in mm)		
Depth	800	
Width	432	
Height	735	1135
USEFUL DIMENSIONS (in mm)
